GARY BELL

(971) 281-9449 • bellgary.work@gmail.com • https://garybell-ee.github.io/

Dedicated Electrical and Computer Engineering student at George Fox University with a strong technical foundation and diverse experience in power systems, radio frequency engineering, signal processing, analog circuit design, embedded systems, and digital hardware design. Skilled in designing, testing, and troubleshooting electrical and electronic systems through hands-on engineering experience. Seeking opportunities to further develop technical expertise and gain practical experience in power generation, transmission, and distribution.

EDUCATION

George Fox University, Newberg, Oregon — Expected Graduation May 2028

Bachelor of Science in Electrical Engineering

Bachelor of Science in Computer Engineering

- Engineering Involvement: Partnering with PathLight to develop and organize an engineering camp for students in Belize.

WORK EXPERIENCE

George Fox University
Engineering Teaching Assistant [Newberg, OR - August 2026-Present]
• Guide students through digital logic design labs, explaining concepts and helping troubleshoot circuits and Verilog-based design.
• Grade assignments and provide constructive feedback to strengthen students' technical understanding and problem-solving skills.

Edge & Plane Cabinetry
Project Estimator & Cabinet Installer [Thousand Palms, CA - Dec 2025-Aug 2026]
• Prepared project estimates in Excel by interpreting cabinet drawings and identifying project requirements.
• Reviewed plans and evaluated job-site progress to support project planning and execution.
• Assisted with cabinet installation, applying attention to detail and practical problem-solving skills on site.

Center Stage Tan
Bookkeeper [Dundee, OR - Feb 2022-Nov 2024]
• Maintained and organized business financial records using QuickBooks.
• Reviewed financial information for accuracy and supported day-to-day bookkeeping.
• Prepared and organized financial documentation to support annual tax filing.

SKILLS

Programming: C, Python, Java, AVR Assembly, Verilog.

Software & Tools: MATLAB, Multisim, LTspice, Vivado, Microchip Studio, SolidWorks, GitHub, Excel, Tera Term, Saleae Logic.
